

zetVisions SPoT 3.2 Achieves Certified Integration with SAP® S/4HANA

Master data management solution zetVisions SPoT helps provide companies with reliable and up-to-date information regarding their master data

Heidelberg, May 12, 2016 – Heidelberg-based zetVisions AG announced today that its zetVisions SPoT 3.2 (Single Point of Truth) solution has achieved SAP-certified integration SAP® S/4HANA on-premise edition 1511.

SAP® Certified
Integration with SAP® S/4HANA, on-premise edition

Monika Pürsing, CEO of zetVisions AG, explained: “This certification means that companies that rely on zetVisions SPoT can have the assurance that it interoperates with SAP S/4HANA.”

zetVisions SPoT is based on the SAP NetWeaver® technology platform and has already achieved certified for integration with SAP NetWeaver 7.40. The software is designed to assist companies with the complex task of professionally managing their data quality for different master data domains in a sustainable manner. Using zetVisions SPoT, companies can establish a standardized, reliable and up-to-date database for the entire company group, a “single point of truth” for customer, supplier, financial, product and all other types of master data. As a result, processes of maintaining data can be made more efficient and the solution ensures a complete transparency and documentation of the distribution and use of master data.

Renowned clients from a variety of industries, ranging from medium-sized family-run businesses to numerous corporations listed on the DAX and MDAX indices, rely on the zetVisions solution portfolio in the field of legal entity management and master data management.

About zetVisions:

Based in Heidelberg, Germany, zetVisions AG specializes in developing and implementing state-of-the-art IT solutions for the management of master data and legal entities. A total of 200 clients in Europe, including numerous DAX and MDAX companies as well as medium-sized family-owned companies, now use the solutions that are supported by 75 in-house employees.

With its expertise acquired from more than 400 successful projects zetVisions AG is Europe's largest provider for applications in the field of legal entity management and therefore represents the leading competence center for this topic.

Since 2001, zetVisions AG has been developing solutions based on SAP software and has managed to successfully run a large number of master data projects. In 2012, the company transferred this extensive knowledge into a new solution for master data management called "zetVisions SPoT."
