

zetVisions CIM at Bilfinger Berger SE

Company Profile

Bilfinger Berger achieves an output volume of more than 8 billion euro with about 60,000 employees worldwide. Bilfinger Berger belongs to the leading provider of services for industrial facilities, power stations and real estate. Furthermore, Bilfinger Berger plans and builds major infrastructure projects and offers its clients a comprehensive range of services for all phases in the lifecycle of properties.

In addition, the group acts as private partner to the public sector, developing transport and social infrastructure on the basis of long-term concession contracts.

BILFINGER

„With zetVisions CIM, as the leading systems for investment data, we get sophisticated overviews of investment according to our requirements at one click. This leads to more transparency for all involved divisions.“

Oliver Röhl
Head of Group Accounting
Bilfinger Berger SE

Initial situation

- Different lists of investments were created with Excel, Word and/ or Power-Point by diverse central sections as well as by sub-groups
- Due to numerous changes at the investment companies, the continuous updating of the overview „Investments, associated companies“ required a high maintenance
- All changes had to be transferred manually in all further lists/ evaluations
- The list of shareholdings was created and distributed annually.
- Multiple paper storage of documents relating to company law (contracts, commercial registers, etc.) in different divisions

Motivation

- Efficient investment management
- More efficient data collection through distribution of tasks between headquarters and subsidiaries
- Locally usable information pool in the form of an online database
- Optimization of creation and unification of evaluations on the topic shareholding structure
- Regular information by the board about changes in the shareholding structure
- Electronic archiving of documents relating to company law

Benefits

- The leading system for Corporate Investment Management data (One version of the truth)
- More transparency for the involved divisions.
- Enhancements of the business processes through less coordinations and reduction of media breaks
- Sophisticated overviews of investments according to our requirements at one click
- Greater security concerning Compliance
